

Make Prevention Contagious

Keane and Tylor,
Burnaby

Immunization has saved the lives of more babies and children than any other medical intervention in the last 50 years.

Talk to your health care provider about the vaccines your baby needs to stay healthy, as well as those recommended before kindergarten.

**Find out where
you can get your
child immunized.**

Chilliwack

Make Prevention Contagious

Dawn and Lucas,
Vancouver

Immunization protects Lucas from many of the dangerous germs he might encounter at daycare, on the playground, and even at home. Talk to your health care provider about the vaccines your baby needs to stay healthy, as well as those recommended before kindergarten.

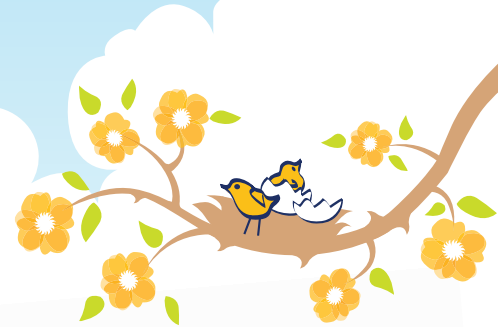

Find out where you can get your child immunized.
